BROCK WINS.

BEING AWARDED ONE-EIGHTH OF THE PALOS VERDES.

End of a Long Drawn Lawsuit—The Court Decides That He Has Equities Which the Surrender of His Deed Did Not Waive.

After many months of litigation A. D. Brock came out of Department No. 6 of the Superior Court yesterday with decision in his favor against J. M. Pearson of San Francisco. By the decision he is entitled to a one-eighth interest in 700 acres of the most valuable land at San Pedro. The case is a peculiarly interesting one, involving nice points of law, and affecting large interests. A portion of the land was sold by the defendant to the Southern Pacific Railroad Extension Company or \$250,000. A full synopsis of the decision by Judge Walter Van Dyke is as follows:

On the 9th of June, 1887, the plaintiff entered into an agreement in writing with A. W. Timms, who at that time was the owner of the lands, including the premises in controversy. In the agreement Timms agreed to sell to the plaintiff within 90 days from the date thereof, the land in controversy for the sum of \$25,000, \$10,000 to be paid upon the execution and delivery of the deed and the balance at the expiration of two years thereafter, to be secured by mortgage, and the plaintiff thereupon paid the sum of \$100 as a part of the first payment. In the latter part of June, 1887, and while the plaintiff was the owner of the lands, H. V. Burner, as the representative of the defendant Pearson, entered into negotiations with the plaintiff for the purchase of said agreement, in order that his principal might acquire the right to purchase said tract of land from him, and they finally agreed that the plaintiff should so transfer the agreement that defendant Pearson could purchase the land of Timms upon the terms embodied therein, and in consideration of so doing that Pearson should pay the whole of the purchase price of the land, and that the plaintiff should have a one-fourth interest therein, free of all costs and incumbrances. On the 1st of July, 1887, in pursuance of this agreement, the plaintiff executed and delivered, at Burner's request, an assignment of the agreement to H. O. Weller, in order that Weller might be secured for a loan of \$180 which Burner requested him to make to the plaintiff, and Weller then and there, by direction of Burner, executed, acknowledged and delivered to the plaintiff an instrument in the form of a grant, bargain and sale deed, conveying to the plaintiff an undivided one-fourth of the right, title and interest in the land described in the complaint.

"chaser." His answer filed during the trial was of an altogether different tone, as in it he alleged it was the profit and not the land in which Brock's interest, if he had any, would lie. While the trade was pending, and before the deed to Pearson, the latter had already negotiated a sale for a \$50,000, after the suit was brought Pearson sold to the San Pedro Harbor Dock and Land Association for \$33,000 cash and a large amount of the stock of the company, and it thereafter sold to the Southern Pacific Railroad Extension Company for \$250,000.

It is clear that if the plaintiff has any interest at all it is an interest in the realty. He was not the agent of Pearson, was not to be remunerated by him for any services, as an agent or otherwise, and therefore there was no other consideration whereby he could have an interest in the proceeds of the sale of the land except from the fact that he held an interest in the land itself. There cannot be any reasonable doubt from the testimony, and from all the surrounding circumstances, that it was the understanding that, although the legal title should be vested in the defendant Pearson for the purpose of certain trades and manipulations, yet the plaintiff should retain an interest to the extent of one-fourth in the property purchased of Timms. From the first verified answer of the defendant it appears that the promises he made were made without any intention of confirming them, and this brings him within the provisions of the Civil Code in reference to what constitutes actual fraud.

The decision then discusses the question of fraud, and cites numerous authorities sustaining the position taken. It then goes on to the matter of Brock's actual interest, stating that the testimony shows that he parted with one-fourth of his interest to Peck and another one-fourth to Weller, so that his interest, instead of being one-fourth as at first, is only one-eighth.

In regard to the claim of the other defendants, San Pedro Harbor Dock and Land Association and the Southern Pacific Railroad Extension Company, that they as purchasers in good faith should not be bound by the judgment or decree, the Court holds that they are bound; that it appears in evidence that they were fully informed of the character and extent of the plaintiff's claim before the purchase, and that the notice was sufficient even as to the amended complaint. Therefore the Court orders that findings and judgment for the plaintiff, as prayed for, to the extent of one undivided one-eighth interest in the land described in the complaint.

THE EAST SIDE.

A Budget Gathered by "The Times" Reporter.

The District Lodge of the Independent Order of Good Templars will meet with the John B. Finch Lodge in East Los Angeles, commencing this morning and continuing to the evening. The meeting will be held in Odd Fellows' Hall, Moor's block.

Mrs. George Weeks is reported to be on the sick list. There is a great deal of sickness in East Los Angeles at present.

The Presbyterian Church people have completed the refurbishing and seating of their church and have adopted the "pew renting" system for revenue.

Arthur Hall is out of the Wells Fargo office now and expects to go north soon.

It is rumored that Wells Fargo & Co. will discontinue their office on Downey avenue, on account of lack of business.

Mrs. J. S. Brunner is building another cottage next south of her residence on North Sichel street. It will cost about \$1000.

The ladies of the Congregational Church and the gentlemen of the Phillips Club are making arrangements to entertain and refresh the good people of East Los Angeles in the new addition to the church next Thursday and Friday evening. They met last evening to perfect arrangements. They will be prepared to present a short entertainment each evening, consisting of musical and literary parts and drills.

After the programme is completed the doors of the bazaar will be thrown open and those present will be invited to promenade among its decorated booths and refresh themselves at a moderate cost with ice cream, cake, coffee, lemonade, etc.

It is understood that there will be no mean display of art works, needlework and fancy decorations, and the preparations so far made look convincing.

D. Bottrell will soon commence the erection of a large brick block on the corner of Downey avenue and Walnut street, where Clark Bros.' grocery store now stands. The building will be about 80 feet front on Downey avenue by about 60 feet deep, and will be built but one story high for the present, with walls of sufficient thickness to support a second and third story, and will have an iron front.

A BIG SUIT

Growing Out of the San Jacinto Tin-mine Deal.

In the United States Circuit Court yesterday a bill of complaint was filed, which brings the famous San Jacinto tin mine into the courts again. Julius Leszynsky is the complainant and William A. Simmons of New York the defendants. The complaint sets forth the claim of the plaintiff to a \$100,000 commission on the sale of the property. He alleges that in January, 1888, Simmons had the mine property, comprising a tract of land in the Rancho Soberane de San Jacinto, for sale. Being unable to sell it, he agreed to give the plaintiff 10 per cent. on \$1,000,000 if he could sell it for him. In the course of the agreement, he brought Malcolm G. Webb, in connection with Simmons, and English capitalists were interested in it. Capt. Crane, an expert, came over from England and reported favorably on it. A contract for the sale at \$200,000 was entered into. The plaintiff alleges that the defendants entered into a conspiracy to defraud him of his commission; that they organized the San Jacinto Syndicate, and that Simmons conveyed the property to it; not, however, for the consideration originally paid, but only for the purpose of having a convenient method of distributing the inordinate profits which will arise upon the sale to bona fide purchasers, and defraud the complainant. He therefore prays that the defendants be enjoined from selling any title until his rights be ascertained. He also prays for the appointment of a receiver of the property.

He Wants His Mirror. LORDSBORO, May 6.—Mr. Editor—DEAR SIR: My last week's paper has not arrived here, so the postmaster says; so you will please send it, as I would as soon lose a link out of a log chain as to one number of my WEEKLY MIRROR.

B. WHITE.

IT IS DECIDED.

MR. GAGE GETS ONE-FOURTH OF THE PORTILLA TRACT.

Findings of the Supreme Court as Taken From a Transcript on File With the County Clerk—The Herald Away OK.

Old Mother Herald was a little "too soon" when she came out yesterday morning and boldly announced that no decision had been rendered in the Supreme Court case of Gage vs. Downey, although THE TIMES announced last Saturday that a decision had been rendered in favor of Mr. Gage, giving him 5000 acres in the heart of the Warner ranch, valued at about \$500,000. A transcript of the decision has been in the city several days and can be seen on file in the Supreme Court clerk's office, on the northeast corner of Requena and North Main streets.

The whole rancho, which consists of about ten leagues of land, has been in possession of ex-Gov. John G. Downey. The land has been in litigation since 1887, when Mr. Gage, getting his title through his wife, who is a daughter of John Rains, who secured his interest in the grant through Don Juan J. Warner, the original owner.

The Warner rancho is covered by two patents, one of which consists of six leagues, including the celebrated Mora Moss league, and the other consists of four leagues. The patent covering the four leagues, known as the Portilla tract, is the portion which by the decision spoken of is now the property of Mr. Gage, he being given an undivided one-quarter of the land, or 5000 acres.

After discussing the various phases of the case, as presented by the briefs and as related to tracts outside of the Portilla tract, and which lands not embraced in the Portilla tract are decided to be the property of ex-Gov. John G. Downey, the Court goes on to say that the land referred to as the Portilla tract demands further consideration and concludes by saying that the title of one-quarter thereof, or between four and five thousand acres, belongs to Henry T. Gage. The concluding paragraphs to the decision are as follows:

"The title to one-fourth of the lands embraced in the Portilla tract patent is thus vested in the surviving children of John Rains. This one-fourth passed to the plaintiffs prior to the commencement of this suit, and they are entitled to recover it for the foregoing reasons. The judgment and order are erroneous (this means the judgment of lower court deciding against Mr. Gage) as to the one-quarter of the lands included in the Portilla patent.

"They are therefore reversed and the cause remanded for a new trial as to the one-quarter interest above mentioned."

The opinion is written by Judge Thornton and concurred in by McFarland, Sharpstein and Patterson. It will be seen that inasmuch as the Court said that the plaintiff, Mr. Gage, is entitled to recover one-quarter of the Portilla interest, it is simply a mere matter of form in thus returning it to the lower court to enter a decree in his favor and put him in possession of the property.

The title to one-fourth of the lands embraced in the Portilla tract patent is thus vested in the surviving children of John Rains. This one-fourth passed to the plaintiffs prior to the commencement of this suit, and they are entitled to recover it for the foregoing reasons. The judgment and order are erroneous (this means the judgment of lower court deciding against Mr. Gage) as to the one-quarter of the lands included in the Portilla patent.

The building will be about 80 feet front on Downey avenue by about 60 feet deep, and will be built but one story high for the present, with walls of sufficient thickness to support a second and third story, and will have an iron front.

THE POWELSON CASE

A "Mac" Can be Tried Without a Jury.

Yesterday Judge McKinley, in Department No. 6 of the Superior Court, rendered a decision in the Powelson case. This important case was argued at length before him recently and taken under advisement. Powelson is one of that hybrid class known in common parlance as "macs," and was arrested as a vagrant. His case has been pending in one way or another, and seeing a state of a year. It finally came before Justice Lockwood, who proposed to try him without a jury. To this Attorney Gage objected and endeavored to obtain an injunction from Judge McKinley compelling him to try it with a jury. The Court yesterday denied the motion, dismissed the restraining order and alternative writ. He granted ten days for the filing of a bill of exceptions. The decision will have a wide effect in the trial of this class of cases.

HE TOOK THE WRONG MEDICINE.

Robert Stewart of Petaluma recently had a queer experience. He writes:

"Carbuncles and boils afflicted my face and neck for weeks. Finally I procured a bottle of one of the leading nostrums. To my surprise, it was nothing but water. This made me suspicious in common parlars, but seeing a statement that Joy's Vegetable Saraparilla dried up boils and face eruptions instead of forcing more out as the potash saraparilla did, I bought a bottle. The effect was astonishing. The carbuncles and boils began to dry up, and in two weeks my face was as well and smooth as ever. My brother also took a bottle of the same Remedy, Stewart, Cal."

Petaluma Star.

I Explanatory Note—The mineral loddas of potash, which is the basis of nearly all other saraparillas, attacks the blood direct, hence impurities through the skin, creating more boils and pimples. Joy's Vegetable Saraparilla acts oppositely. Its vegetable alterations eliminate all impurities through the natural channels, hence dries up pimples and skin eruptions at once. The above testimonial is a case in point.

When Baby was sick, we gave her Castoria. When she was a child, she cried for Castoria, when she became Miss, she clung to Castoria, when she had children, she gave them Castoria.

As usual, Ohio carried off the honors in the military procession at the Centennial, having nearly 4000 well-drilled men in line, under the command of the Governor of the State.

We print this morning a very full and complete copyright dispatch from Paris, descriptive of the grand opening of the Exposition, which is the event of the year in that gay capital, and is expected to attract nearly a hundred thousand Americans, from first to last.

WHAT'S the matter with THE TIMES in Santa Ana? "Oh, it's all right. And there is plenty of testimony to be had there to refute the falsehood and malice weakly hurled against it by the convicted scamp with the one-dollar reputation. He laughs best whose whining is of the ultimate order."

A GENTLEMAN writing from Kansas City to an eastern paper says it has the boom in Oklahoma seems to have absorbed all the energy of the season, as business in other Western cities, outside and near the excitement, is extremely lifeless. Money is scarce, and all transactions are carried on by means of trading. Looking upon such a picture as this, citizens of Los Angeles certainly have no reason to grumble.

GOVERNMENT REGULATION OF RAILROADS.

The question of the regulation of railroad charges, which the Interstate Commerce Bill was designed to solve, is still one of the most vexing problems which trouble the country. Since the decision of a case against the State of Illinois, by the Federal Supreme Court in 1876, it has been the unquestioned law of the land that it is competent for the Legislature to regulate and limit charges made by railway carriers for the transportation of persons and property. The case mentioned, however, does not by any means settle all the questions which may be raised in this connection. The holding of the court is that the power to name rates is a legislative power, but if it is unlimited in respect to this species of property, a power to legislate is a power to confiscate.

Hon. T. M. Cooley of Ann Arbor, Mich., is chairman of the Interstate Commerce Commission. He recently read an interesting paper before the Harvard Finance Club of Boston on "The Requirement of Impartiality and Uniformity in Railroad Service." Mr. Cooley, in his address, said that State regulation of commerce by rail within a State may sometimes seriously interfere with interstate commerce by rail, and when that is found to be the case, it is obvious that either State power must override national power, or national power must assert supremacy. He showed that it was very difficult for the Government to limit rates by legislation, unless the same road may be run at a loss, and another at a profit sufficient to overcome the loss.

This would be, in effect, a species of taxation. The act is at present far from perfect, and the question must be dealt with slowly and with patience, because of the embarrassment incident to the actual situation.

Owners of roads have a legal right to make their investments profitable; a uniform mileage rate is therefore inadmissible, because some lines would be profitable, while others would be bankrupt. Continuing on the subject of the difficulty of regulating rates, Mr. Cooley remarks:

"The requirements of this act seem to be reasonable, but the fact is, we take one of them up we see many points of divergence of opinion between even experts. It is absolutely impossible to apply a strict rule of equality without creating a revolution in the whole process of regulation. It is impossible to apportion accurately the cost of transportation as between persons and property carried with any degree of accuracy. When rates in general are not exact, it is impossible to make an adjustment as between several articles of commerce, which may very properly be left to a large discretion. What I have said I think will give some idea of the inherent difficulty of this subject of reasonable rates. It ought also to convince us that the question of reasonable rates is not so much one of calculation

as of statesmanship. We are dealing with a public agency, and in doing so are under obligation while protecting the interests of stockholders, to make the public agency accomplish the greatest practicable public good."

THE TIMES is on record as being always willing—nay, anxious—to give newly-appointed officials, irrespective of party, ample opportunity to show that their motives are honorable before criticizing such of their actions as may seem unworthy of approval. We have adhered to this course in the case of the present Council until quite recently, when seven members of that body, without any apparent good reason, voted to remove a member of the Police Commission who was bent on doing his duty. This action we, in common with a great majority of independent and courageous citizens, criticized somewhat sharply.

We now feel called upon to write still more severely regarding the course taken by seven members of the Council at yesterday's session. The new charter very wisely provides that the city funds shall be loaned to the responsible banking institution which shall offer the highest rate of interest therefor. Mayor Hazard called the attention of the Council several times to the clause in the charter which makes this provision. The Council took no notice of these hints. The Mayor then caused the City Clerk to advertise for bids for the use of the money, and that of the Los Angeles Savings Bank, being the highest, was accepted. The Council, however, refused to give effect to the Mayor's action. Instead of this, they passed an ordinance providing for an assistant treasurer, among other extra officials. This ordinance Mayor Hazard yesterday returned without his approval, giving his reasons for such action in very caustic, though dignified language. The Council thereupon unanimously passed the ordinance over the Mayor's veto, a subsequent motion to reconsider, by Mr. Bonsall, having only the support of that gentleman and Mr. Wirsching.

Now, we say to these seven Councilmen that, if they think they can safely persist in defying public opinion and the public interest, as they appear bent on doing, they are very much mistaken. The cost to the city, their refusal to carry out this provision of the charter, is at the rate of not less than \$15,000 a year. This money comes directly out of the pockets of the taxpayers, and these taxpayers, while they are scraping and stinting themselves during these dull times, to make expenses and meet their obligations, will not sit down quietly and see seven men, elected and paid by them to serve the city, fritter away so large a sum, in order to gratify their private spite, or serve their own private interests.

These seven Councilmen appear to be in danger of sharing the fate which befell the few who tried to swell themselves up as big as the bull—

—are already—in their own estimation—bigger than the Los Angeles charter.

Next, they will perhaps be trying conclusions with the Constitution of the United States. The result, in any case, of persistence in such a course will be, that their friends will, ere long, be called upon to perform the delicate task of moving the remains of seven very much broken-up Councilmen.

THE BOSTONIANS.—Public expectation had been well worked up in anticipation of the opening of the "Bostonians" in English opera last night, and it was a large, appreciative and fashionable crowd which filled the auditorium when the curtains went up on Thomas's opera of *Mignon*, which was chosen for the first appearance of the company here. The audience was a composite of society and the people, and there was almost a seat for every person in the house.

There was a general verdict of applause.

CHARMING.—The opera is in its first performance, and it is a success, and any work to the contrary and if it may be said without profanation, is somewhat dreary withal. The full strength of the company had no chance of being exhibited, but it is not taking too much to say that it will be hard to top it.

WIND AND RAIN.

Havoc Caused by the Storm in California.

Early Fruit Greatly Damaged in Some Districts.

Yolo County Farmers Discouraged at the Outlook.

Most of the Damage Confined to the Central and Northern Counties—Early Grain Helped Somewhat.

By Telegraph to The Times.
SAN FRANCISCO, May 6.—[By the Associated Press.] A general downpour of rain was reported throughout the State during the last 24 hours.

In most of the towns mentioned there is still rain, with no sign of letting up.

Location	Last 24 hours.	Total for last week.
San Francisco	1.14	12.11
Sacramento	.21	14.44
Livermore	.12	14.69
Folsom	.10	14.62
Lathrop	.44	10.95

TULARE, May 6.—This section was visited by a line of rain yesterday. The fall so far, has been about one-half inch, and will be worth many thousands of dollars to this county, even now. Some damage was done to hay, but the thorough wetting will cause grain to head out fine. Fruits especially new vineyards, are greatly benefited, also alfalfa. One large grain-grower says the rain was worth \$10,000 to him.

HAY AND GRAIN DAMAGED.

BIGGS, May 6.—The present storm commenced yesterday evening at 5 o'clock and rained all night with strong wind and showed over forty hundreds for the storm. Considerable damage to hay and heavy grain is reported.

VENTURA, May 6.—It commenced raining at 11 o'clock yesterday and rained until 5 p.m. Much barley is reported down and missed its maturity.

VISALIA, May 6.—The rainfall for yesterday's storm was 1.10 inches. Farmers say the benefit to late-sown grain will far exceed the damage to the hay crops. It was the largest storm ever known for the month of May. Oroardists report the rain of much benefit to fruits of all kinds.

SACRAMENTO, May 6.—It has been raining hard all day, with prospects of continuing during the night. Considerable grain has been lodged and berries and berries damaged.

SAN JOSE, May 6.—The rainfall since Saturday is .66; for the season, 16.78.

At Los Gatos from Saturday to sundown yesterday, rain fell making a total for the season of 28.8 inches.

PASADENA, May 6.—Rain began falling this morning. There were slight showers all day. Slight damage to the hay crops has been done.

MONTEGO, May 6.—It has been raining and the very heavy wind has been blowing grain badly. A heavy south wind has been blowing all day. It is still storming.

RED BLUFF, May 6.—There was a heavy rain till noon today. When it is blown down it falls on the bottom lands. Heavy losses all over the country are reported.

VACAVILLE, May 6.—The storm here during the last two days was the most severe to hit the valley. Considerable damage was done to all kinds of fruit trees. The main injury was done to cherries and apricots. The rainfall for the storm is 2.10 inches.

CHICO, May 6.—The storm which commenced yesterday continues. Light winds have done much damage to fruit trees.

MARYSVILLE, May 6.—During the last 48 hours 1.96 inches of rain has fallen. During the entire storm a strong south wind prevailed, and all sunflowers followed grain that had been considered bright to down. This condition does not apply to winter sown grain, which if anything has been benefited. With the exception of cherries the fruit crop is uninjured.

SANTA BARBARA, May 6.—It recommends rain to 10 inches. The damage is still light. A light shower is now falling.

THE STORM IN NEVADA.

CARSON (Nev.), May 6.—The storm is general throughout the State. Five feet of snow has fallen in the mountains.

SAN FRANCISCO, May 6.—Secretary Long, of the Board of Horticulture said today that the rain would do a great deal of damage to the fruit crop in the State, unless it falls on the ground. The spell He saw that strawberries and cherries in particular, will be injured as will all fruits now blossoming. The rain is too early to harm peach, apple and pear crops, and all late fruits.

FARMERS DISCOURAGED.

WOODLAND, May 6.—The storm that began on Saturday has ceased. Over two inches of rain has fallen. Summer fall grain is flat all over the country. Hundreds of acres of two and three year old grain are damaged. Alfalfa hay will prove nearly a total loss. The damage will be immense. Farmers are greatly discouraged. The wind did some damage to the fruit crop.

ON THE COAST.

The Storm Plays Havoc with the Shipping.

SAN FRANCISCO, May 6.—[By the Associated Press.] Sunday's storm on the bay somewhat lessened in its fury during the night, and the wind at 6 o'clock this morning was blowing at the rate of 16 miles an hour. By 9 o'clock, however, it had increased to 24 miles an hour and at noon to 28, blowing from the south. In the afternoon it veered to the west and decreased in velocity.

The bar was very rough during the day, and the few vessels arriving had a rough time making port.

The ship Wilma, lying at the Alameda wharf, was considerably damaged by striking against the wharf.

A schooner owned by the schooner C. T. Hill, received a dispatch from Russian Landing this afternoon conveying information that the schooners C. T. Hill and Maggie Young had gone ashore on a sandbar near mouth of Russian River, but were resting easy. The river is, however, considered a dangerous place, and the opinion is expressed here that the vessels will probably prove total wrecks.

The C. T. Hill is a fine schooner, having made on her last trip to San Francisco, between \$14,000 and \$15,000. The Maggie Young is a small schooner of about 15 tons. The crews of both vessels were saved, and an effort will be made to get the vessels off.

FORESTRY.

First Meeting of the New State Board.

SAN FRANCISCO, May 6.—[By the Associated Press.] The new State Board of Forestry Commissioners, composed of Senator Frank J. Moffit of Oakland, Walter S. Moore of Los Angeles and John D. Spreckels of San Francisco, had its first meeting this afternoon. Sands W. Foreman was elected secretary. As the Choice Board of Trade has signified its intention to care for the experimental station in Butte county, the State Board resolved to make no appropriation for this station.

It was also resolved to spend no more money on the station at Santa Monica, nor on any experimental stations situated on land belonging to the State.

It was announced that Senator Dargie of Oakland had offered to donate 25 acres of land in Santa Barbara county on which to

establish an experimental station, and the matter was referred to Senator Moffit.

After adopting motions to present 40,000 and 50,000 additional trees to Oakland and San Francisco respectively, for planting, the board adjourned.

A Supreme Court Order.

SACRAMENTO, May 6.—The Supreme Court, at the request of the bar of Los Angeles, has made the following order as to filing opinions:

"Ordered that hereafter, in all cases, the opinion of the Court shall be filed in the Clerk's office of the district to which the cases respectively belong, and that the time for petitioning for a rehearing will be computed from the date upon which the opinions is filed in the local office."

The object of the order was to enable attorneys practicing outside of San Francisco to file petitions for rehearings in due time.

Suspended from the Track.

SAN FRANCISCO, May 6.—At the meeting of the directors of the Stock Hornet Association held last evening, the horse Al Bern and his lessee, C. W. Turner, were suspended from the track. Jockey Carillo was recently expelled for pulling the horse in a race on the first day of the spring meeting.

San Diego's New Regime.

SAN DIEGO, May 6.—The new city charter went into effect today. Mayor Douglass Gunz, the new City Council and an entire list of new city officials were inducted into office.

Sam Brannan Dead.

ESCONDIDO, May 6.—Samuel Brannan, the well-known California pioneer, died here last evening. He was ill with inflammation of the bowels about two weeks.

NOTES FROM ABROAD.

GERMANY'S LATEST PROPOSALS ABOUT SAMOA.

President Carnot's Assailant Undoubtedly Insane—Riots Among Striking Miners in Westphalia.

By Telegraph to The Times.

LONDON, May 6.—It is stated that Germany will comment that Malietoa be reinstated as King of Samoa, provided the United States Government purchases the German plantations or guarantees Germany will further waive her demands for the punishment of Matafa, if relatives of the Germans who were slain are amply compensated. Germany will not claim political preponderance.

NOTES IN WESTPHALIA.

BERLIN, May 6.—The miners' strike in Westphalia is spreading. During the labor riots in Gelsenkirchen a miner was killed and many persons injured.

A BANQUET ENDS IN GORE.

ROME, May 6.—A radical banquet given in Terlani tonight to celebrate the anniversary of the French revolution ended in a street riot between workmen and military in which several persons were injured.

O'BRIEN AND HARRINGTON.

LONDON, May 6.—William O'Brien and Edward Harrington, released from prison to testify before the Russell Commission, are on their way to London. Harrington is attired in prison dress.

CARNOT'S ASSAULT.

PARIS, May 6.—Perrin, who fired at President Carnot yesterday, was recently under treatment for insanity.

Houses of sixteen boulangers at Neuilly have been searched by the police.

LARGE FIRE.

LONDON, May 6.—The large waste of the Royal Exchange was gutted by fire. Gibes burned. Loss half a million dollars.

SOCIALISTS ARRESTED.

HAMBURG, May 6.—Thirty persons selling Socialist pamphlets have been arrested.

A SERIOUS CHARGE.

Sensation from the Quiet Town of Compton.

Last evening a man named Willard Culver was brought to the County Jail by Deputy Constable Vail and locked up on a charge of attempting to produce an abortion. Culver himself was seen after he was placed in the tank, but refused to make any statement in regard to the affair. From what could be learned from other sources the case appears to be a very complicated one and presents a number of peculiar features. All of the parties live at Compton, and the person upon whom Culver is charged with having procured the abortion is his wife, who is the daughter of a well-to-do and respectable farmer named Stephen Culver, who has been living at Compton for the past five years, and has been married about thirteen months. It is said that he does not go along with his wife, and they have had several difficulties. The alleged crime was committed on Saturday last, and Dr. Downs of Compton by Deputy Constable Vail went out to Compton immediately to arrest the doctor, and expected to return by 12 o'clock with his prisoner. The party did not get in until 2 o'clock, and did not get their man, he having evidently got wind of the affair and skipped. Dr. Downs is a very prominent man in Compton, being assistant postmaster and holding several positions in societies. He is married and has three children, so it is not believed that he has gone far.

It was learned from Deputy Rogers that Culver claims that he had left his wife, and that Downs is responsible for her condition. He says that he suspected her of infidelity and finally taxed her with it, when she admitted that she had been criminally intimate with the Doctor.

Mrs. Culver's people deny this, and there will doubtless be a great deal of unsavory testimony on both sides when the case comes to trial.

Thrown Out.

What might have been a fatal accident occurred yesterday afternoon on North Main street in front of the Barker block. Pearl Davis, an Alameda street woman, and a man named Merritt were sitting in a buggy, when a Wells-Fargo & Co. cart came crashing into them across the street. The woman was thrown high into the air and came down in a sitting position on the granite blocks of the street. Some spectators say she turned a complete somersault in the air. She was carried into a drug store, and if not internally injured, escaped with a few bruises. Merritt was not hurt.

The Weather.

SIGNAL OFFICE, LOS ANGELES, May 6.—At 5:30 a.m., the barometer registered 30.01; at 5:07 p.m., 30.04. Thermometer 49, 58. Maximum temperature, 85°; minimum temperature, 45°. Rainfall, past 24 hours, 31. Partly cloudy.

INDICATIONS.

SAN FRANCISCO, May 6.—Indications for 24 hours: For California, rain 16. Northern California, generally fair weather in Southern California, southwesterly winds, lower followed by high temperature.

LETTERS TO THE TIMES.

Information Wanted.

LOS ANGELES, May 4.—[To the Editor of THE TIMES.] The City Council has had a sewer built on Arcadia street from Main to New High; also one on Aliso from Alameda to Los Angeles street by day work. They are no doubt laudable, in having given employment to men, but they have had a superintendent and inspector, two men where it needed but one if the work had been done by contract. The contract for sewers would not have been more than 80 cents per foot, and the subscriber would wish to know the cost of the work as done, as he expects all city work done economically, having to pay proportionately for the same, and has made it a practice to let all his work done by contract, and the sewers in question exceeded \$600 in cost.

H. MARTZ, Taxpayer.

Trying to Get a Jury.

SAN FRANCISCO, May 6.—Indications for 24 hours: For California, rain 16. Northern California, generally fair weather in Southern California, southwesterly winds, lower followed by high temperature.

CRAZIES.

AN AVERAGE OF FIVE A MONTH SENT TO THE ASYLUM.

The Native Population Comparatively Exempt From Mental Derangement—Men More Subject to it Than Women—Some of the Causes That Produce it.

The insanity record in Los Angeles county for the past year is an interesting one. It is not marked by a larger number of cranks than pop up in other parts of the country, five commitments a month being the average.

One of the most suggestive facts in connection with the record is that over 60 per cent. of the crazies are from other parts of the United States and foreign countries. In a large majority of cases the people have gone daft on religious subjects. The proportion of males to females is as three to one, and there are very few cases in which religion is traceable as the cause of the insanity in the female subjects examined.

A TIMES reporter conversed with several physicians yesterday in regard to insanity in this county, and their observations were of much interest.

One of the most pertinent results of an investigation of the subject is that the native population of the county furnishes an exceedingly small proportion of the contingent that goes annually to the asylums at Napa and Stockton.

The Demolition Mr. Whaling introduced with three resolutions which he very much wanted adopted, but which were voted down and were unable to break through.

One was that no persons be paid for work done until employed by the board; another that the chairman notify members when committee meetings are to take place, no reports to be made until there be full meetings; the third and last of Mr. Whaling for the evening, that no person be allowed to occupy or use parts of school property.

The Committee on Sites, Buildings and Repairs made a report recommending the following expenditures for sites and repairs:

SITES.

1—Site in vicinity of present school-house, the title to present lot being in dispute. \$2,000.

2—Vicinity of Downey avenue and Thomas street. \$6,000.

4—Vicinity of Alvarado and Soto streets. \$2,000.

6—Vicinity of Avenue and Saratoga street. \$4,000.

8—Also near Euclid avenue and Stevenson street. \$2,000.

12—Two lots adjoining present site on Bloom street between Main and Washington street. \$6,000.

PASADENA NEWS.

ANNUAL MEETING OF THE UNIVERSALIST PARISH.

Fall Proceedings—A Social Reunion—Interesting Local Fountain—A Beautiful Scene—Boulevard Project—Personal Mention.

PASADENA, May 6.—[Correspondence of THE TIMES.] The annual meeting of the parishioners of the Universalist Church was held in the vestry-room at 2:30 o'clock this afternoon.

The meeting was called to order by A. C. Throop, moderator of the board of trustees, and after prayer by Rev. E. L. Conger the business of the meeting was opened.

On motion, E. E. Spaulding was appointed secretary, and the minutes of the last annual meeting and the adjourned session of May 14th at once proceeded with. They were approved and ordered placed on file.

On motion, the reports and action of the trustees in all their meetings during the year were opened and read by topic.

A vote of thanks was, on motion, tendered to H. M. Conger for the donation of a heating apparatus for the new church.

The roll call was now open and about twenty members responded to their names. The following new names were enrolled: The Mrs. E. G. Gardner, M. K. Phelps, Mary C. Carson, E. Fairman and Messrs. Charles A. Emerson, A. L. Kelsey and wives, and Cyrus A. Anthony. On motion they were duly elected.

The report of the secretary was not heard, owing to absence.

N. M. Johnson, acting treasurer, submitted his annual report. It showed a balance in hand of \$191, and receipts from all sources of \$2950.77. The plate subscriptions amounted to \$768, and from the Ladies' League over \$700 is received for the report was received and placed in the hands of auditors Fairman and Millard.

The Building Committee of the new church submitted the most gratifying report. The cost of the structure, including the grounds and improvements, foot up to over \$56,000. The total indebtedness up to date is \$20,000, which is assumed by parties in the church, not a single mortgage being ever given. The report was referred to an auditing committee composed of Messrs. Galt, Clark and Spaulding.

The Committee on the Organ Fund reported \$865 in cash receipts and \$300 in outstanding subscriptions. On motion Mrs. E. E. Spaulding was appointed to collect the balance due the fund.

An amendment to a section of the bylaws providing for the election of three trustees to serve one year was changed so that a trustee would be elected for three years, one going out each year and his successor duly appointed.

The election for trustees resulted in the choice of A. G. Throop, F. G. Wooster and J. B. Cooley.

It was moved that a music committee of three members be chosen by the board of trustees to serve for one year, whose duty it would be to look after the musical part of the church work.

The various societies were invited to prepare a summary report of the work accomplished by their several bodies to be submitted at the annual reunion.

After an adjournment of the trustees and a hearty vote of thanks in appreciation of their valuable services, an adjournment was taken until Thursday afternoon at 5 o'clock.

A BEAUTIFUL SCENE.

Each day furnishes something new and the eye is treated to a novel and pleasing sight. This afternoon as the reporter of THE TIMES was waiting around the depot in search of an item he saw an unusual sight which arrested his attention. The overland train going west had just arrived and on the rear of the Pullman car group together were Weston Evans and wife and two sisters, the latter grandniece of the hand of J. C. Fitzhenry, proprietor of La Mariposa Cottage, Crandall, the photographer had stationed his instrument near the station platform, and while the train was waiting hastily caught the farewell parting, securing an excellent photograph. Mr. Weston was formerly in the employ of Wootton Bros., insurance agents, and leaves a host of friends in the Crowd of the Valley, whose good will goes with him to his home in the City of Brothers Love.

HERE AND THERE.

The rainfall yesterday, as reported by Dr. Thomas Bigg, amounted to .08 of an inch, over .08 during May of last year. The indications this evening point toward rain, and as the venerable prophet says, the symptoms are in that direction. The total rainfall for the season is 23.61, over 21.28 of last year.

The Board of Trade holds a regular meeting tomorrow afternoon, when it is to be a large delegation of members and citizens will be present. It is the first meeting of the second year of the organization.

The New England Society will meet again until fall.

The regular monthly meeting of the directors of the Pasadena Lake, Vineyard, Land and Water Company was held at the company's office at 2 o'clock this afternoon. A full board was present, but little business of any consequence was transacted. The water was ordered shut off from the pipes of a number of delinquents. The work on the reservoir, now being cemented, was discussed.

BEFORE THE SUPERVISORS.

Messrs. O. R. Dougherty, G. W. Wilson and Prof. William H. Hammond of South Pasadena, a special committee from that suburb to meet the Board of Supervisors, waited on that august assemblage this morning. A division of the district was asked for, thereby creating a new township. If this was done, as shown by maps and their boundaries, the people of South Pasadena would immediately proceed to the election of a justice of the peace. The petition was taken under advisement.

CHURCH REUNION.

An annual reunion of the societies and congregation of the Universalist Church will be held on Thursday afternoon and evening in the vestry-room. At 5 o'clock an adjourned meeting of the parish will take place, followed one hour later by supper. At that meeting the reports of the officers of the various societies will be read and opened for discussion. Music, toasts, and a general good time generally is the order of programme.

LOCAL MENTION.

The Goodyear, Dillon & Cook Manufacturing Company paraded the principal streets this morning; their band discharging excellent music along the route. This evening they played to tag business at the Grand.

James W. Lancaster, a wheelman

of this city, has signified his intention of entering the bicycle races at Agricultural Park on Decoration day.

A memorial service in honor of Mrs. Mary Marsh, who died yesterday, will be held at the Presbyterian Church on Tuesday afternoon, at 3 o'clock.

A delegation of 25 of the members of Pasadena Lodge No. 173, I.O.G.T., leaves tomorrow to attend the district lodge meeting which convenes with John B. Finch Lodge of East Los Angeles, at 10 a.m.

THE BOULEVARD PROJECT.

In accordance with instructions from the Board of Trade and in demand of the interests of the citizen in general, Messrs. Masters, Brown, O'Neill, Tebbetts, and Carter, members of the Boulevard Committee, waited on the Board of Supervisors, at its monthly meeting this morning. W. U. Masters stated the wants of the community and the advantages of a public roadway between the two cities, and in conclusion drew a strong comparison of the highways of Santa Barbara and Pasadena. The committee was given some assurance that the bridge across the arroyo at Garvanza would be built, provided the people along the route would be public spirited enough to build the bridge themselves. The members will have to leave to the conclusion that they can stand it no longer, and if something is not done very soon the poor old couple will be compelled to sell the poor-house or die of starvation and neglect.

Several months ago they were taken sick and both have been confined to their beds almost ever since. The neighbors have paid for medicine until

now, and have had to contribute to the support of the old couple.

When they first came to Los Angeles from the South, they were able to work and accumulated quite a little competency, but they entered into several speculations which turned out bad, and now they are in abject poverty, and for over a year they have been kept up by the neighbors, who have fed them and provided them with clothing.

BUSINESS.

By Telegraph to The Times.
Money, Stocks and Bonds.
New York, May 6.—Money can easily
be had at 50¢ per cent.

Steering exchange, dull but steady at 4.87
for 60-day bills; 4.88% for demand.

American cottonseed oil, 53¢.

Government bonds dull but steady.

New York, May 6.—The stock market began the new week with moderate volume of business, which, however, dwindled down to very small proportions before the day closed. There was a strong tone displayed almost throughout, and fractional losses at the opening were recovered, and even realizations at the close failed to get a majority of the list down below Saturday's closing figures.

CHICAGO,

THE CITY IN BRIEF.

The report of City Treasurer M. D. Johnson shows the balance on hand in the several city funds, April 29th, to be \$411,008.78.

Dr. J. J. Choate, who has been confined to his room for the past four or five days, was able to resume his professional labors yesterday.

Tom Bing, on trial in Judge McKinley's court yesterday on the charge of gaming, was found guilty by the jury and will be sentenced Wednesday.

Maj. Donnelley will deliver an address on Thursday evening at G.A.R. Hall on Main street on his experiences in the war. It will be worth reporting.

It is stated authoritatively that there was no insurance on building or windmill which was burned last Saturday night on Mrs. Mooney's property at the corner of Jefferson and Main streets.

Arguments on a motion for a new trial in the Gulf divorce case will be heard and a decision rendered next Saturday evening at the Illinois meeting, in connection with a musical program.

Miss Mamie Short, assisted by Miss Mabel Anthony, the expert banjoist, will play Ventriloquism and Santa Barbara this week to give entertainments, and to Pomona next Monday evening for the same purpose.

The following people left for the north on the 1:05 p.m. train yesterday: A. G. Tingman, J. B. Lankershim, W. S. Hopkins, E. Duncan, Miss E. Field, H. W. Chase, O. Manah, Miss Allen, Miss Baldwin, H. C. Willet and L. L. Wood.

Early yesterday morning Officer Rich arrested a Mexican named Enriko Rodriguez, on New High street, and locked him up on a charge of petty larceny. Rodriguez is supposed to be implicated in the theft of a lot of window weights a day or two ago.

William S. Pendleton of Newark postoffice, New Jersey, writes to THE TIMES about his father, Edward Street Pendleton, who came to California 30 years ago. The writer is very anxious to hear from his father, if living, and offers to pay liberally for any information on the subject.

The following were the arrivals at the County Jail yesterday: Ramon Corona, petty larceny, San Jose township; James Odell, assault to do great bodily injury, Dennis Creed, vagrancy, 30 days, and Willard Culver, producing a miscarriage, all from the city. At 7 o'clock there were 84 prisoners in the tanks.

Thursday night Maj. Donnell, Assistant Prosecuting Attorney, will read a paper before Logan Post, G.A.R., on Fremont's 100-day campaign in Missouri. The paper was prepared to be read before an eastern encampment, and those who have heard it say that it is a highly interesting document to all old soldiers.

A joint meeting of the committee from the various G.A.R. posts will be held at No. 12 Court Street on Wednesday afternoon at 1 o'clock for the purpose of making arrangements for the celebration of Memorial day. All the members are earnestly requested to be present, as it is important to get the work under way at once.

A bill of complaint has been filed in the United States Circuit Court by Asa F. Call of Algona, Iowa, against John B. Kane and W. E. W. Lightfoot. The complaint is to secure a judgment for \$4000, the balance of purchase money for a tract of land in the Rancho San Jacinto Viejo, in San Diego county. The original contract was to Kane for \$6000, and he afterward transferred an interest to Lightfoot.

Emma Lorette, the French prostitute who became insane about a week ago while serving a 40-day sentence in the City prison for vagrancy, and was sent to the County Jail, was sent yesterday returned to the city authorities to serve out her time, she having entirely recovered from her mania. An effort will be made to have the woman released, as it is believed that her solitary confinement was really the cause of her trouble, especially as she can hardly speak a word of English, and therefore could talk to no one.

An item in yesterday's TIMES announced that Capt. John A. Irwin, chief clerk of the Nadeau Hotel, had been presented with a gold-headed cane by Mr. Chase, one of the proprietors, whereupon he dressed up and for the first time in years went to church, where he came to the conclusion that statement, who says that his husband is a regular church member, and took an umbrella, not the cane, to church. It is not denied that Capt. Irwin dressed up for the occasion, consequently the country is safe.

A probably fatal accident occurred at Redondo Beach Sunday afternoon, the victim being a laborer at that place. A gang of men were at work pulling piles out of the surf, a four-horse team being used for that purpose. The men had made the line fast about a large post to hold the timber, when it suddenly gave way, the rope catching one of the laborers and throwing him a distance, breaking his arm, and inflicting several injuries, the extent and nature of which the physician in charge was unable to determine. The name of the man could not be learned.

Justice Savage yesterday held an inquest on the body of the three-month-old infant of John Telzer, who resides in Boyle Heights. The child died very suddenly Saturday night before the arrival of the physician who had been sent for, who therefore declined to give a death certificate. Dr. J. J. Choate made a post-mortem examination, and found that death had resulted from convulsions caused by intestinal inflammation, whereupon the jury returned a verdict of death from natural causes. The inquest was held at the undertakers of Garrett & Samson, on Main street.

Charles A. Codori, the compositor who in defending himself against the attack of three men on Main street Sunday afternoon, struck Alex Grant, one of his assailants, with a stone, knocking him senseless, was yesterday released from custody on \$50 bonds. Grant's condition was much improved yesterday morning. He had regained consciousness, but was still considerably dazed. He was sent home in a hack, accompanied by his brother, and the physicians think he will be all right in a day or two. Charles Codori yesterday received several letters from persons who were on the street car when the difficulty occurred, offering to come forward as witnesses in his behalf in case they are needed.

Poundkeeper Farrel has been having a good deal of trouble of late with a gang of young hoodlums, and yesterday they almost mobbed one of his assistants, a Mexican named José Garcia. On Wednesday last they broke open the door of the pound and turned loose 12 or 15 dogs, and several times since have broken in the door and let out the imprisoned canines, the total number of dogs being 35. Last evening Farrel was notified that a row was in progress at the pound, and on going to the place he found a gang of boys stoning Garcia, whom they had chased

up on the roof of the building. He released his unfortunate dog-catcher and telephoned for police protection, when Officers Del Valle and Miller went down and captured a couple of small boys, who were taken to their homes and turned over to their parents, who promised to spank them well. As Mr. Farrel gets \$1 per dog for the release of 35 canines means the loss of just that many dollars to the poundmaster.

PEOPLE'S STORE.

Daily Bulletin of the Leading Dry Goods House.
